SECURITY UPDATE:

We are excited to announce that we are installing a long-awaited building-wide security system at our Townline Headquarters. The building will have motion-detecting cameras, an all building paging system, and a card activated door system. Once the system is fully installed, all entrances at Townline will be locked and monitored by cameras. Staff will utilize a card reader to enter. Guests will request entry using a communication system with our Receptionist at identified entrances. With so many people coming in and out of our facility for a multitude of reasons, this will allow increased safety for everyone.
